

## BUILDING EMERGENCY PROCEDURES

### Individual Training Record

I have received training in, and understand:

That the most senior person rostered at the club – normally the DUTY BAR MANAGER - will be the CHIEF WARDEN	
The Role of the Chief Warden as described in the BUILDING EMERGENCY PROCEDURES MANUAL	
The Role of the Deputy Warden as described in the BUILDING EMERGENCY PROCEDURES MANUAL	
How to operate a Fire Extinguisher	
How to tell different types of extinguishers by the colour bands on them (red-water, yellow-foam, blue-dry powder, black-carbon dioxide)	
What each type is best used for.	
That this information is contained for ready reference in the BUILDING EMERGENCY PROCEDURES MANUAL which is also available on the clubs website.
