

According to Safe Work Australia

Printing date 12.10.2016

Revision: 12.10.2016

1. IDENTIFICATION: PRODUCT IDENTIFIER AND CHEMICAL IDENTITY

Product Name: Ice Machine Cleaner Other Means of Identification: Mixture

Recommended Use of the Chemical and Restriction on Use: For removing scale build up in Ice Machines

Details of Manufacturer or Importer:

Bracton Industries (NSW) Pty Ltd

50 Chard Rd

Brookvale NSW 2100

Phone Number: 02 9938 1800

Emergency telephone number: National Poison Information Centre: 13 11 26

2. HAZARDS IDENTIFICATION

Hazardous Nature:

Classified as Hazardous according to the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) and Safe Work Australia criteria.

Classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail (7th edition).

Skin Corrosion/Irritation 1B

H314 Causes severe skin burns and eye damage.

Serious Eye Damage/Irritation 1 H318 Causes serious eye damage.

Signal Word Danger

Hazard Statements

H314 Causes severe skin burns and eye damage.

Precautionary Statements

P260

Do not breathe dust/fume/gas/mist/vapours/spray.

P280

Wear protective gloves/protective clothing/eye protection/face protection.

P264

Wash hands thoroughly after handling.

P303+P361+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if

present and easy to do. Continue rinsing.

P310 P321 Immediately call a POISON CENTER/doctor.

Specific treatment (see on this label). IF INHALED: Remove person to fresh air and keep comfortable for breathing.

P304+P340 P363

Wash contaminated clothing before reuse.

P301+P330+P331 IF SWALLOWED: rinse mouth. Do NOT induce vomiting.

P405 P501

Store locked up. Dispose of contents/container in accordance with local/regional/national regulations.

3. COMPOSITION AND INFORMATION ON INGREDIENTS

Chemical Characterization: Mixtures

Description: Mixture of substances listed below with nonhazardous additions.

Hazardous Components:

6419-19-8 Phosphonic acid, [nitrilotris(methylene)]tris-

10 - 30%

(Contd. on page 2)

According to Safe Work Australia

Revision: 12.10.2016

Product Name: Ice Machine Cleaner

(Contd. of page 1)

4. FIRST AID MEASURES

inhalation:

If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Seek medical attention if breathing problems develop.

Skin Contact:

In case of skin contact, immediately remove contaminated clothing and wash affected areas with water and soap. Seek medical attention if symptoms occur.

Eye Contact:

In case of eye contact, hold eyelids open and rinse with water for at least 15 minutes. Seek medical attention if symptoms occur.

Ingestion

If swallowed, do not induce vomiting. Never give anything by mouth to an unconscious person. Seek medical attention.

Symptoms Caused by Exposure:

Inhalation: Inhalation is unlikely. Inhalation of aerosols may cause irritation to the upper respiratory system. May cause cardiac disturbance and Central nervous System effects such as anxiety, depression, vertigo and incoordination. Over exposure may cause pulmonary oedema.

Skin Contact: Causes severe skin burns and irritation.

Eye Contact: Causes serious eye damage and irritation, redness, and pain. may cause conjunctivitis. Ingestion: May cause irritation or burns to the mouth, throat and stomach, with nausea, vomiting and diarrhoea. May cause cardiac disturbances.

5. FIRE FIGHTING MEASURES

Suitable Extinguishing Media: Water fog or fine spray.

Specific Hazards Arising from the Chemical:

Hazardous combustion products include oxides of carbon, nitrogen and phosphorous and water vapour. Product is not flammable.

Special Protective Equipment and Precautions for Fire Fighters:

When fighting a major fire wear self-contained breathing apparatus and protective equipment.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures:

Wear approved respiratory protection, chemical resistant gloves, protective clothing and safety boots. Evacuate all non-essential personnel from affected area. Do not breathe vapours. Ensure adequate ventilation.

Environmental Precautions:

In the event of a major spill, prevent spillage from entering drains or water courses.

Methods and Materials for Containment and Cleaning Up:

Stop leak if safe to do so and absorb spill with sand, earth, vermiculite or some other absorbent material. Collect the spilled material and place into a suitable container for disposal. Small spills can be mopped up, diluting with plenty of water.

7. HANDLING AND STORAGE

Precautions for Safe Handling:

Use of safe work practices are recommended to avoid eye or skin contact and inhalation of vapours. Use only outdoors or in a well-ventilated area.

Food, beverages and tobacco products should not be stored or consumed where this material is in use. Always wash hands before smoking, eating, drinking or using the toilet. Wash contaminated clothing and (Contd. on page 3)

Product Name: Ice Machine Cleaner

(Contd. of page 2)

other protective equipment before storage or re-use. Provide eyewash fountains and safety showers in close proximity to points of potential exposure.

Conditions for Safe Storage:

Store in a cool, dry and well ventilated area away from direct sunlight. Keep container tightly closed when not in use. Protect containers from physical damage. Keep away from mild steel and alkalis. Do not store in mild steel containers.

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

Exposure Standards:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

Engineering Controls: Ensure adequate ventilation of the working area.

Respiratory Protection:

Use an approved vapour respirator under conditions where exposure to the substance is apparent (e.g. generation of high concentrations of mist or vapour, inadequate ventilation, development of respiratory tract irritation) and engineering controls are not feasible. See Australian Standards AS/NZS 1715 and 1716 for more information.

Skin Protection:

Rubber or plastic gloves. See Australian/New Zealand Standard AS/NZS 2161 for more information. When selecting gloves for use against certain chemicals, the degradation resistance, permeation rate and permeation breakthrough time should be considered.

Occupational protective clothing (depending on conditions in which it has to be used, in particular as regards the period for which it is worn, which shall be determined on the basis of the seriousness of the risk, the frequency of exposure to the risk, the characteristics of the workstation of each worker and the performance of the protective clothing). See Australian/New Zealand Standard AS/NZS 4501 for more information.

Eye and Face Protection:

Eye and face protectors for protection against splashing materials or liquids. See Australian/New Zealand Standard AS/NZS 1337 for more information.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance:

Form: Liqu

Colour: Clear, slightly coloured.

Odour: Very slight aromatic odour.

Odour Threshold: No information available pH-Value: <2

Melting point/Melting range: No information available

Initial Boiling Point/Boiling Range: >100 °C

Flash Point:
Flammability:
Auto-ignition Temperature:
Decomposition Temperature:
No information available
No information available

Product Name: Ice Machine CLeaner

Miscible with water in all proportions

Solubility in Water: Partition Coefficient (n-octanol/water): No information available

Viscosity:

Mobile

% Volatiles by Volume:

~72 % (Water)

VOC:

<1 %

10. STABILITY AND REACTIVITY

Possibility of Hazardous Reactions:

Hazardous polymerisation will not occur.

Corrosive to mild steel. May react violently with alkalis. Reaction with carbonates or bicarbonates releases carbon dioxide.

Chemical Stability: Stable at ambient temperature and under normal conditions of use.

Conditions to Avoid: No further relevant information available.

incompatible Materials: Mild steel and alkalis.

Hazardous Decomposition Products: Oxides of carbon, nitrogen and phosphorous and water vapour.

11 TOXICOLOGICAL INFORMATION

Toxicity:

LD₅₀/LC₅₀ Values Relevant for Classification:

6419-19-8 Phosphonic acid, [nitrilotris(methylene)]tris-

Oral LD₅₀ >2100 mg/kg (rat)

Acute Health Effects

Inhalation:

Inhalation is unlikely. Inhalation of aerosols may cause irritation to the upper respiratory system. May cause cardiac disturbance and Central nervous System effects such as anxiety, depression, vertigo and incoordination. Over exposure may cause pulmonary oedema.

Skin: Causes severe skin burns and irritation.

Eye: Causes serious eye damage and irritation, redness, and pain, may cause conjunctivitis.

ingestion:

May cause irritation or burns to the mouth, throat and stomach, with nausea, vomiting and diarrhoea. May cause cardiac disturbances.

Skin Corrosion / Irritation: Causes severe skin burns.

Serious Eye Damage / Irritation: Causes serious eye damage.

Respiratory or Skin Sensitisation: Based on classification principles, the classification criteria are not met.

Germ Cell Mutagenicity: Based on classification principles, the classification criteria are not met.

Carcinogenicity: This product does NOT contain any IARC listed chemicals.

Reproductive Toxicity: Based on classification principles, the classification criteria are not met.

Specific Target Organ Toxicity (STOT) - Single Exposure:

Based on classification principles, the classification criteria are not met.

Specific Target Organ Toxicity (STOT) - Repeated Exposure:

Based on classification principles, the classification criteria are not met.

Aspiration Hazard: Based on classification principles, the classification criteria are not met.

Chronic Health Effects: Repeated skin exposure may cause irritation and burns.

Existing Conditions Aggravated by Exposure: No information available

Additional toxicological information: No information available

12. ECOLOGICAL INFORMATION

Ecotoxicity:

Aquatic toxicity: May be harmful to aquatic organisms.

Persistence and Degradability: No further relevant information available.

Bioaccumulative Potential: No further relevant information available.

Mobility in Soil: This product is readily transported by water.

Other adverse effects: This product contains phosphorous, which may contribute to algal blooms.

13. DISPOSAL CONSIDERATIONS

Disposal Methods and Containers: Dispose according to applicable local and state government regulations.

Special Precautions for Landfill or Incineration:

Please consult your state Land Waste Management Authority for more information.

14. TRANSPORT INFORMATION

UN Number

ADG, IMDG, IATA

UN1760

Proper Shipping Name

ADG, IMDG, IATA

CORROSIVE LIQUID, N.O.S. (Phosphonic acid,

[nitrilotris(methylene)]tris-)

Dangerous Goods Class

ADG Class:

8 Corrosive substances.

Packing Group:

ADG, IMDG, IATA

111

EMS Number:

F-A,S-B

Hazchem Code:

2X

Special Provisions:

223, 274 5L

Limited Quantities:
